# One Way Vision (Custom Vinyl Banner)

## One Way Vision

Der's One Way Vision belongs to custom vinyl banner, using vinyl banner printing on the surface which has the following features:

- 1) For continuous Development of new products, Der finally found the best way to solve contradiction between high bright rate and good printing character by using 1.6mm diameter hole and 2.4mm distance interval. That makes printing effect much good, on the other hand, the bright rate reaches to 55%.
- 2) Excellent ink absorption and good flexibility. Der's One Way Vision which also belongs to advertising vinyl banner is made of good quality PVC material, which guarantees the good ink absorption and color saturation. The printed image is vivid with good color contrast.
- 3) Glue: Der adopts the transparent glue with blue color.
- 4) Release Paper: Der uses imported art paper, which makes the surface of one way vision smooth.

Application of One Way Vision: it belongs to custom vinyl banner, advertising vinyl banner, it is used in bus window, Metro window, using format printing, indoor and outdoor decoration.

One Way Vision is suitable for most kinds of solvent printers, using vinyl banner printing.

## Main Parameters:

Type	PVC Film	Hole Diameter(mm)	Weight of Release Paper (g/sq.m)	Width(m)	Length(m/roll)
DMT8100	0.18mm	1.60	140	0.98/1.27/1.37/1.52	50
DMT8001	0.20mm	1.60	180	0.98/1.27/1.37/1.52	50
DMT8002	0.20mm	1.60	230	0.98/1.27/1.37/1.52	50
